U.S. 4,589,669 to Kedem discloses a pallet jack with a hydraulic lift comprising a centrally-grippable loop handle, a holding extension projecting from a steering pole, and a lever pivoting in plane with the handle loop having three positions: neutral, lift, and lower. Kedem does not teach dual levers. U.S. 4,900,881 to Fischer discloses a tiller safety interlock for a maintenance machine comprising dual levers acting on a common displacement element. The levers operate one function, and must be pulled in unison to move the displacement element.
